Kassow Robots was founded in Copenhagen, Denmark, and is developing and manufacturing unique and efficient 7-axes lightweight robots for industrial applications. The company's motto is „strong, fast, simple“. Its products offer speed and power, yet also have a long reach. The robots' user-friendliness provides businesses with greater flexibility, allowing SMEs without their own robotics specialists to achieve complex automation and programming cost-effectively and independently. What is more, the cobots are compact enough for use in confined spaces.
